D I R E C T O R

Joining Usborne Books at Home has been a very big blessing in my life for many reasons. One of the biggest has been the Shining Star Group. The Shining Star Group is what our group calls itself because everyone in our group is a STAR. Our group is very successful with 26 supervisors and hundreds of active consultants across the nation from Alaska, the Northwest, California, and the Midwest to the East Coast.

The success of our group comes not from the success of any single person, but from the leadership, talent, dedication and hard work of hundreds of stars across our country. I am very grateful for each and every one of them.

“The flexible hours allow me to stay home with my family and to work beside my other activities.”

I joined Usborne Books at Home eight years ago at a time when my husband’s business was in financial difficulty. I had been a teacher, but found that being gone all day and having my children in daycare was too difficult for my family and me.

I joined Usborne, not to make money, but to cheer myself up with these wonderful books for my family. My financial goal was to make \$6.25 a month because I thought I might be able to sell \$25 in books a month. With a 25% initial commission, my income would have been \$6.25. Much to my surprise – I began making real income right away – because the books sell themselves and people love them. I met several ladies who also wanted to promote Usborne books. Within eight months I became a supervisor. My income took a big jump at that point.

Because of the added income from Usborne books, we were able to avoid financial disaster. Now, eight years later, my business provides a significant source of income for our family. My group has grown to 26 supervisors all over the country and I have made many wonderful friends as a result.

I have had many opportunities for growth and my confidence has soared as a result of being a part of this company. One of the things I love best about my job is that I get to wear several different hats: Doing home parties, working with schools and libraries, meeting the public as a vendor at conferences, fairs, and conventions, marketing and professional development with my group.

Best of all, I have been able to be a stay at home mom while achieving all of this. My children have grown up with these wonderful books and this has made a very positive impact on our family.

“The added income from Usborne Books at Home has allowed us to make and achieve financial goals, which wouldn’t have been possible on just my husband’s income.”

Our immediate family consists of my husband Jeff, myself and my two daughters: Maura, 14 and Daina, 12 and a lab called Max.

Maura was six and Daina was four when I first discovered Usborne books. They have grown up surrounded by these great books and I am truly grateful for the results.

They are both avid readers, and more importantly, avid learners. Our home is always full of projects: from cooking to sewing, gardening and science projects. Our home often has visitors. I believe young people like to be here because there is always a lot to do. It is fun to be here. I attribute that in part to these wonderful books.

My husband and I had both hoped our children would grow up to be life long learners, and I believe we are achieving that goal.

Joining Usborne Books at Home has changed my life for the better in so many ways. The biggest way is that I have been able to contribute to our family income while staying at home and watching my children grow up every day. I am extremely grateful for that and for all the friendships I have made with in this company.
